SUMMARY OF THE REASONS FOR DECISION:

The computer print-out entitled *L1-n2-01.jpg* is classified as:
Objectionable.

This is because the publication promotes and supports the exploitation of children and young persons for sexual purposes, and also promotes and supports the use of urine in association with sexual conduct.

The publication is a computer print-out. Its main part is a colour photographic image which shows a naked girl standing and urinating. She is visible from her head nearly to her knees. She holds her hands on her hips, looking intently down as she urinates; a stream of urine is visible. Her youthful facial features and very slightly developed body indicate that she is under 16 years of age.

This print-out shows a child or young person in a pose with a strong sexual element. There is a high degree of nudity. The limited information associated with the photographic image on the computer print-out, and by extension on the computer source from which it came, provides no context to suggest this is anything other than a work of sexual entertainment. Given that the publication shows a child or young person, explicitly depicts her in a pose of a sexual nature, and appears intended to arouse the viewer, it gives the message that the child or young person it depicts is sexually attractive and available. Thus it promotes and supports the exploitation of children and young persons for sexual purposes. In addition, the girl's pose draws attention both to the act of urination and to her nudity and genitals. Given that the publication presents the act of urination in a sexually titillating manner, the publication promotes and supports the use of urine in association with sexual conduct.

This publication is deemed objectionable under s3(2) of the Films, Videos, and Publications Classification Act 1993. Section 3(2) provisions are inconsistent with and override the rights and freedoms set out in s14 of the New Zealand Bill of Rights Act 1990.
